Less than half-time COA includes T&F, allowance for books & transportation only.			
T&F based on 15 hours per semester @ \$176/hr for in-state and \$303/hr for out-of-state			

Food and Housing:

All students have estimated Housing allowance of \$10,600. Amount estimated as follows: The cost of a two-bedroom apartment is estimated at \$2000 + \$500 for utilities. The student is expected to share the apartment with a roommate. Therefore, $\$2500/2 = \1250 per month. At 31 days in a month and a student attending class 5 days in a week: $\$1250/31 = \40 per day. $\$40 \times 5 \text{ days} \times 30 \text{ weeks} = \6000 . Food of \$4600 is estimated at $\$31.75/\text{day} \times 5 \text{ days} \times 30 \text{ weeks}$.

Books and Supplies:

Expenses for taking 15 credits per semester estimated at $\$1000 \times 2 \text{ semesters} = \2000

Miscellaneous Personal Expenses:

Allowance estimated at $\$8/\text{day} \times 5 \text{ days} \times 15 \text{ weeks} \times 2 \text{ semesters} = \1200 for students living with parents.

$\$10/\text{day} \times 5 \text{ days} \times 15 \text{ weeks} \times 2 \text{ semesters} = \1500 for all other students, including out of state.

Transportation:

Allowance estimated at $\$10/\text{day} \times 5 \text{ days} \times 15 \text{ weeks} \times 2 \text{ semesters} = \1500 for all in-state

An additional \$500 is added to the allowance for out-of-state students due to the additional expenses incurred for travel to their home states.
