BISHOP STATE COMMUNITY COLLEGE
BAKER GAINES CENTRAL CAMPUS AUDITORIUM

- Domestic violence is the leading cause of injury to women—more than car accidents, muggings, and rapes combined.
- Men who as children witnessed their parents’ domestic violence were twice as likely to abuse their own wives than sons of nonviolent parents
- Studies suggest that up to 10 million children witness some form of domestic violence annually.
- Around the world, at least one in every three women has been beaten, coerced into sex or otherwise abused during her lifetime. Most often, the abuser is a member of her own family.
