JOB OPPORTUNITIES

Electronics technicians are needed in almost every area of business and industry, and graduates have the flexibility to choose jobs in areas which interest them most. They are prepared for beginning level employment in a wide range of technical jobs, including biomedical electronics, aerospace technology, communications technology, computer repair/installation and networking, consumer electronics, office machine maintenance and repair, robotics and programmable control and engineering technology.

ACCREDITATION

Bishop State Community College is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award associate degrees, certificates and short certificates. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call (404) 679.4500 for questions about the accreditation of Bishop State Community College.

Success Starts Here.

Nondiscriminatory Statement

The Alabama State Board of Education through the Alabama Department of Postsecondary Education proclaims nondiscriminatory practices in Alabama two-year institutions. It is the official policy of the Alabama Department of Postsecondary Education and Bishop State that no persons shall, on the basis of race, color, disability, sex, religion, creed, national origin, age, or age, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program, activity, or employment.
The Electronics Engineering Technology program at Bishop State Community College is designed to prepare students for exciting, fast-paced occupations. Skilled technicians will apply fundamental concepts to repair, manufacture and calibrate modern electronic equipment: cell phone towers, robotics, hi-tech welding machines, electric cranes, hospital equipment, total electric cars and aircraft equipment.

New and exciting electronics jobs are being developed constantly, providing stable job opportunities. Because this program teaches concepts by which all electronic circuits function, electronic equipment currently being designed will be understood by our successful graduates. Knowing the fundamental concepts of circuit operation will make you the “go to” person on the job and a leader among your peers.

Courses in Electronics Technology are also offered in the evening as hybrid/online options to provide members of the work force opportunities to enhance job knowledge or learn new skills. Through our Dual Enrollment Program, high school students may receive college credits while attending public, private or homeschool classes. Contact your high school counselors for details or call (251) 665.4087.

Bishop State offers high quality instruction at an affordable cost. Tuition and fees are among the lowest in the state of Alabama.

A number of financial aid opportunities are available: Pell Grant, Veterans Benefits, Federal Supplemental Educational Opportunity Grant (FSEOG), Work Study and scholarships, including senior citizen scholarships. Apply for financial aid online at [www.fafsa.gov](http://www.fafsa.gov).

Students entering the Electronics Engineering Technology program must take the COMPASS placement exam (required by the Alabama State Board of Education) or provide documented proof of exemption.

Obtain an Admissions Application on the Southwest Campus or log on to [www.bishop.edu](http://www.bishop.edu). Be prepared to furnish an official copy of your high school transcript or a copy of the General Equivalency Diploma (GED) Certificate issued by the appropriate state education agency. Applicants will be notified of acceptance by the College via mail after all enrollment materials have been submitted. Then meet with an advisor for academic advisement.

Visit [www.bishop.edu](http://www.bishop.edu) for further information.
