The **ACT mathematics test is a 60-question, 60-minute test** designed to assess the mathematical skills students have typically acquired in courses taken up to the beginning of grade 12.

The **reading test is a 40-question, 35-minute test** that measures your reading comprehension. The test questions ask you to derive meaning from several texts by:

• referring to what is explicitly stated
• reasoning to determine implicit meaning

The **science test is a 40-question, 35-minute test** that measures the interpretation, analysis, evaluation, reasoning, and problem-solving skills required in the natural sciences.

• **You are not permitted to use a calculator on the science test.**

• The test assumes that students should be in the process of taking the core science course of study (three years or more) that will prepare them for college-level work and have completed a course in Earth science and/or physical science and a course in biology.
